Dear Client,

No doubt a lot has happened with your family and business since you completed Holistic Management training.

Since we met, Holistic Management and **Inside Outside Management** have seen a few changes too. On the international front, The Savory Centre is now called Holistic Management International. Australia has our own branch, Holistic Management International Australia, run by fellow educator, Judi Earl. Holistic Management International Australia will provide an increased level of support in the form of newsletters, field days and a website. And, **Inside Outside Management** has a new logo and a new-look website.

This cap is a gift from us, Brian and Helen at **Inside Outside Management**, to thank you for your involvement with Holistic Management. Wear it out and about and chat to anyone you see wearing one and share your experiences and ideas with them. This will help you to connect with other practitioners and build a network with interested people.

We look forward to staying in touch with you and please let us know if we can provide you with one-on-one support for your business be it decision making, grazing planning or wealth generation.

Wishing you every success.

Regards,

A handwritten signature in blue ink that reads "Helen Lewis".

Helen Lewis and Brian Wehlburg
